

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to the U.S. Department of the Treasury. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to the U.S. Department of the Treasury must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 45th day following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.

Line 56 - One borrower's assistance was cancelled at the end of March 2016, but mistakenly, was not reported as cancelled in the first quarter of 2016.

Line 50-The cumulative number of "borrowers no longer in the HHF Program" is different than the number reported in the previous quarter because of

the changes made in other lines and explained in the footnotes.

## Tennessee HFA Performance Data Reporting- Program Performance Hardest Hit Fund Program QTD Cumulative

Line 69 - One borrower's assistance stopped because of being re-emplyed, but after further review, it was discovered that the borrower did not find employment and the THDA resumed assistance payments.

Line 72 - For three (3) borrowers who preiously reported as "completed the program," THDA sent a "shortage payment" in the current quarter. Therefore, their program complition date changed to the second quarter of 2016. One (1) borrower was mistakenly reported as completed the program in the previous quarter.
