

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to the U.S. Department of the Treasury. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to the U.S. Department of the Treasury must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 45th day following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.

Line 1-Since applications marked as denied or withdrawn in previous quarters may be reconsidered due to a change in borrower circumstances, some unique borrower counts may not sum in a quarter-over-quarter fashion.

Line 9 - The QFR was recently updated to reflect updated data and expenses that were not accounted for in the previous report. For this reason the QPR had to be revised to incorporate those change. The difference in administrative spending differed by \$459,781.00.

Line 56 - One borrower was not recertified, and the assistance was cancelled, but later the borrower appealed and the assistance restarted. Line 72 - For two (2) borrowers who previously reported as "completed the program," THDA sent a "shortage payment" in the current quarter. Therefore, their program completion date changed to the second quarter of 2016.
